## Meet Our Founders

*Your satisfaction is our biggest priority*

**DR. I PUTU SANTIKA, M.M.**  
Commissioner

Putu is the pioneer behind this bold and humble idea. Watching a forgotten valley behind his backyard one peaceful afternoon in his village, he realized that we need to work together to conserve this beautiful land before it all turned to a concrete jungle.

With the help of his local community and international connections, he revitalized a region, built a dream, and invigorated a community the world has never seen before.

**GEDE EKA KARMADA, S.T**  
Executive Director

Starting his career as an architect in a national construction and development company, in 2001 Gede ventured to further his career by establishing his own business as a contractor for hotel and villa constructions all over Indonesia.

**NYOMAN AYU SETIARI, S.T**  
Operations Director

Nyoman is a civil engineering practitioner who worked in synergy with Gede in all of his ventures since the start. A voice of reason with a keen eye for detail, Nyoman perfectly balances Gede's vision and design to engineer a livable utopia. With a spirit of local community empowerment, Nyoman and Gede worked hand in hand to build a resort with agricultural tourism as its main attraction.
